NEW!

PORTABLE BLEACHERS

Building on its global reputation as the leader in mobile staging equipment, Stageline is proud to expand its offerings. We now introduce our new mobile bleachers for indoor and outdoor use, designed with the same unwavering commitment to safety and reliability that has established our products as the industry reference.

Offer your audience unparalleled comfort and visibility, wherever your event takes place.

STAGE
LINE

SE240

Since 1987, Stageline has been a leading provider of mobile stages and promotional units. As sports and cultural events grow increasingly sophisticated, so does the demand for world-class audience facilities, especially for VIPs. While exceptional comfort is vital, robust audience security is paramount. Stageline equipment is engineered to meet this critical need: it not only meets and exceeds all international safety codes but is also built for extreme ruggedness, ensuring uncompromising security.

MAIN STRUCTURE

- Robust galvanized steel frame for outdoor use
- Leveling jacks for quick set-up on unlevelled ground
- Guardrail attached to structure for automatic set-up when opening the bleacher
- Guardrail with vertical balustrades for safety
- Choice of 9, 10 and 15 rows depending on customer needs
- Aisle with handrails when required
- Length of trailer between 24' up to 50' with two (2) axles
- Aluminum seat planks
- Footboards
- Delivered fully assembled, ready for use

OPENING/CLOSING SYSTEM

- Self contained hydraulic actuation system powered by 12 VDC battery including charger
- One-person push-button set-up

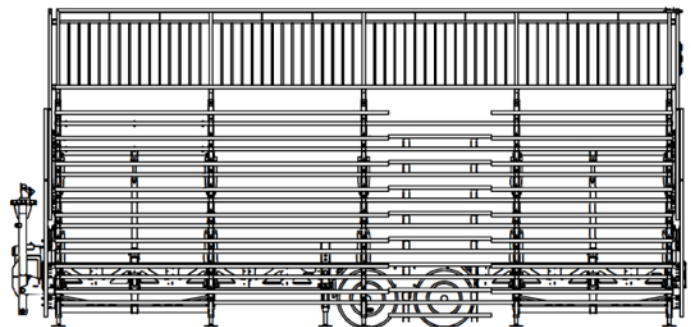

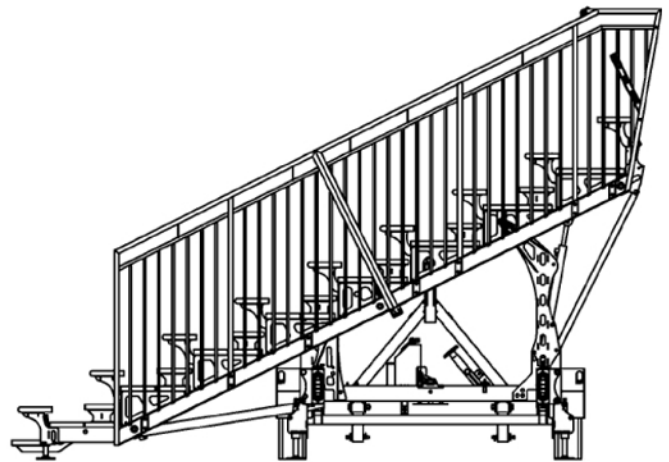

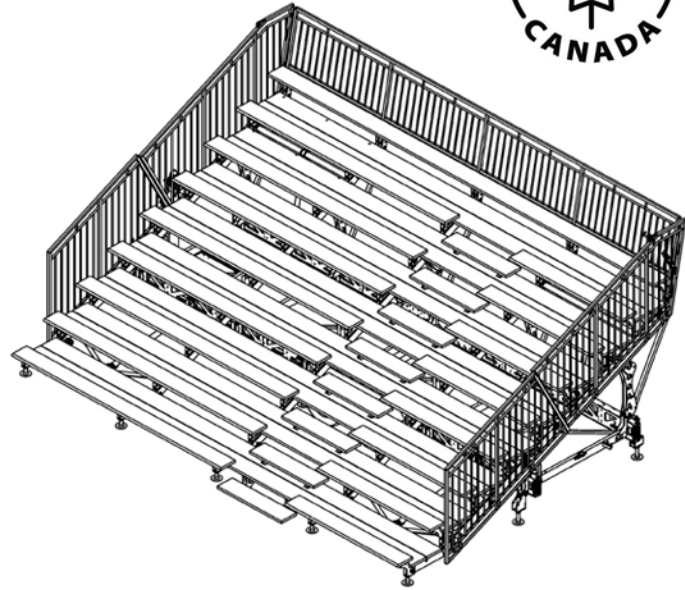

Options are available upon request.

TRANSPORTATION

- Choice of hitch: pintle, 2-5/16" ball coupler or 2" ball coupler
- Folding hitch so other bleachers can be installed side by side
- Goose neck optional
- Electric brakes
- LED lighting

ROW SPACING

- Standard 24 inches center to center
- 18 inches reduced row spacing to increase capacity
- Uniform slope
