

SL225

COMING SOON

PRECISION-BUILT FOR REDEFINED PERFORMANCE

The new Stageline SL225 is a lighter, all-aluminum stage that combines easy towing with uncompromised safety and performance.

STAGE
LINE

Stageline introduces its newest stage, the SL225, a revolution in the 200 series. This all-new, lighter-weight, aluminum stage can be towed by a pickup truck, making your logistics easier than ever.

Despite its lighter build, the SL225 doesn't compromise on performance, it offers an enhanced rigging capacity, superior wind resistance, and reliable weather protection that Stageline is known for. With more precise manufacturing, this stage redefines what's possible, giving you the perfect balance of strength, mobility, and reliability for any event.
