

SPRING TRAINING 2026

YOUR STAGELINE EQUIPMENT INTEGRATES FOUR PRODUCTS IN ONE

- A road legal trailer
- A heavy-duty hydraulic equipment
- A pre-assembled building structure
- A staging structure

UNDERLYING THIS PRODUCT ARE NO FEWER THAN FOUR TECHNOLOGIES

- Transportation
- Hydraulic
- Structural & Mechanical Engineering
- Scenic Technology

A series of operations effectively transforms the trailer into a stage that integrates all the scenic elements needed for rigging such as video wall, lighting equipment, sound system, windwall and banner installation. The key to it all lies in an integration so finely tuned that every component interacts perfectly with each other. Technicians must therefore obtain a certain degree of technical knowledge to operate a Stageline equipment. Driven by the need to ensure technical efficiency, Stageline developed a training and certification program which meets and even exceeds its clients' and users' requirements.

Operation of a Stageline mobile stage by qualified personnel is directly linked with the enforceability of the warranty and the benefit of the 24/7 technical support offered to all Stageline certified technicians.

OBJECTIVES

With its training program, Stageline helps its users and clients increase profitability on their investment through an efficient utilization of the products.

Our experienced instructors offer practical and realistic guidance needed to optimize the participants' performance. Our main objective is to develop the aptitudes and technical knowledge of the manpower responsible for the operation of the unit in order to preserve the product's integrity and guarantee maximum safety levels.

CONTENT

The participants will learn to:

- Understand basic theoretical concepts and stage utilization steps;
- Understand specific interactions of all elements during operation;
- Recognize the risks and consequences of inappropriate use and operation;
- Lead and communicate efficiently with helpers or other technicians on a site;
- Act responsibly for all aspects of work with the unit so as to prevent any undesirable situation.

The operator's training program will include:

- Definitions, concepts and technologies involved in a Stageline mobile stage;
- Explanation of the Operator's Manual and of the set-up/ dismantle sequences;
- Use of the trailer, including loading and efficient leveling methods;
- Set-up and dismantling of the stage;
- Tools and practical techniques for solving mechanical and hydraulic problems;
- Notions and critical factors for scenographic use and application of load limitations.

EDUCATION METHODOLOGY

- Workshop and practical exercises
- Demonstration and simulation of critical situations (group and individual);
- Understanding and explanation of the theoretical aspects of the stage and its documentation;
- Attendance
- Practical examination (practical examination must be successfully passed to obtain certification);
- Certification is based on the trainee's understanding of the product's integrity and safety in general.

PARTICIPATION AND EVALUATION MODE

- In-field practical exercises completed by theoretical training;
- User's Manual;
- The Operator Training Course includes a practical and formal evaluation of each and all participants.

DURATION

3 to 5 days depending on stage model.

NUMBER OF PARTICIPANTS

Groups are limited to four (4) people (per instructor/per stage).

SKILLS & ASSETS

- Leadership.
- Manual dexterity and general technical knowledge.
- Experience in show-business (scenography), or outdoor events.
- Knowledge of mechanics and hydraulics.
- Knowledge or experience in the trucking industry.

CONDITIONS

1. The certificate issued in the technician's name is not transferable and remains valid as long as the technician is still active with the operation of the stage.
2. Certificates are issued solely by Stageline which reserves the right, at all times, to revoke the certification of any technician if major neglect or mistakes are committed.
3. Certified technicians unable to report a minimum pertinent practical operation of the Stageline product in the current year could have their status reexamined. The certification exam might be needed to maintain the validity of the certificate.
4. The technician must hold a written record of the set-ups/dismantles accomplished.
5. Stageline does not guarantee the participants' success. The instructor may refuse any participant if major negligence or mistakes have been detected which may compromise the group's safety or the product's integrity.

NOTES

1. Courses will be given at Stageline's facilities in L'Assomption, Quebec
2. Trainee's expenditures: all related costs, such as hotel, transport and other expenses will be the client's responsibility.
3. Stageline will provide the stages from its rental fleet and trainers throughout the training course.
4. Specific options and/or generation of stages might not be available to train on. Please discuss with your after-sales account executive before booking your trip.

SPRING TRAINING WEEK of **APRIL 13th to APRIL 17th 2026**

GROUP	Duration	\$ / PERSON
GR-1 / SL75	2 Days *	\$ 1 075
GR-2 / SL100	3 Days *	\$ 1 225
GR-3 / SL260	3 Days*	\$ 1 225
GR-4 / SL320	5 Days	\$ 1 745
GR-5 / SL100 & SL260	5 Days	\$ 2 125

****Final activity dates for GR-1, GR-2 and GR-3 will be confirmed to all participants later in march.***

Included : Official Stageline Merch, lunches every day, group dinner, certification paperwork and other surprises...

Location : Stageline's facilities in L'Assomption, QC CANADA.

Places are limited : First come, first serve. Full payment is required to confirm your registration.
