THE SL260
NOTHING COMPARES

STAGE
LINE

STAGELINE ADVANTAGES

STAGELINE, THE SPECIALISTS FOR OVER 35 YEARS IN DESIGNING, PRODUCING AND DELIVERING THE SAFEST AND MOST INNOVATIVE MOBILE STAGES TO OUTDOOR EVENTS.

- Most requested mobile stage in its category
- Holds the market lead in rigging & wind resistance
- Built to last 25 years and more
- Outstanding payback and great resale value

IT ALL STARTS ON THE ROAD

STAGELINE MOBILE STAGES ARE ENGINEERED FOR THE ROAD.

Before its main usage as an outdoor stage, a mobile stage must perform as a road legal trailer. Stageline advanced design combines a custom chassis with multiple hinged panels and telescoping structures that will not alter in performance from mileage and bad roads. It results in excellent road handling and safety year after year.

Countless tours such as the Warp Tour used this model for over 20 years in North America. The SL260 is the preferred touring stage for the Olympic Torch Relays since 1996 and has travelled in 5 continents.

A HIGH PERFORMANCE STAGE

WITH A COMPLETE HYDRAULIC SET UP

- Fast and controlled operations
- Precision designed cylinders with safety block valves
- Low maintenance

1

Level trailer & raise gooseneck.

2

Hydraulically deploy the floor and roof panels.

3

Hang sound, lighting, banners, windwalls and sets at ground and deck level.

4

Raise the roof with up to 12,000 lb (5,443 kg) of show equipment.*

Install stairs, guardrails and add accessories.

* Refer to rigging plan.

AT A GLANCE

FLOOR

32' x 24' (9.8 m x 7.3 m) up to
56' x 32' (17.1m x 9.8m) with
extension platforms

SET-UP

2 technicians*

1 hour

WIND RESISTANCE

115 mph (185 km/h)
without windwalls
77 mph (123 km/h)
with windwalls

RIGGING

18,500 lb (8,391 kg)

* Stageline promotes safe working habits by having a minimum of two workers on every job site.

SHOWCASE YOUR SPONSORS & EVENTS

On the road trailer wrap advertising panels

33' 9" x 9' (10 m X 2.7 m) - rivet-free panels with gel coating that improve graphics application and appearance.

MAXIMUM BANNER SPACE

- 1 Top banner 46' x 5' (14 m x 1.5 m)
- 2 2 Side banners 13' x 21' (4 m x 6 m)
- 3 Backdrop 31' x 18' (9.4 m x 5.3 m)
- 4 Skirt 64' x 4' 8" (19.5 m x 1.4 m)

SAFE & EFFICIENT INSTALLATION

1 A DOUBLE MAST LIFTING MECHANISM TO RAISE THE ROOF AND SHOW SUPPORT EQUIPMENT UP TO 12,000 LB (5,443 KG)

A set of sturdy masts lifts and lowers the roof and show support equipment with balanced or unbalanced loads, even in windy conditions.

2 HEAVY DUTY STABILIZERS WITH A 2' ADJUSTABLE HEIGHT FOR LEVELLING (FROM 3,6" TO 5,6" / 0,9 M TO 1,7 M)

The SL260 can be installed on uneven terrain due to the heavy duty stabilizers that can withstand high lateral loads.

COVERED WINGS

SET-UP

2 technicians*

2.5 hour

SPECIFICATIONS

Roof: clearance 12'-9" to 6'-10" (3.9 m to 2.1 m)

Deck capacity: Rated at 100 lb/sq. ft (500kg/m²)

Weatherproof fire retardant windwalls

OPTIONAL

Scrim windows: 48" x 24" (1.2 m x 0.6 m)

Doors: 72" x 84" (1.8 m x 2.1 m), 42" x 84" (1.1 m x 2.1 m)

* Stageline promotes safe working habits by having a minimum of two workers on every job site.

SCREEN SUPPORT

4,500 lb (2,040 kg) capacity.

Installs from the ground directly to the roof. No need for additional trussing or machinery.

Size: 17' 6" (5,34 m) wide x 14' 7" (4,46 m) Height

Suggested screen sizes : 16' x 12' (4,8 m x 3,6 m) or 12' x 9' (3,6 m x 2,7 m)

A TOUGH MACHINE THAT BEATS THE WEATHER

HIGHEST WIND RESISTANCE IN THE INDUSTRY

Rain and wind protection up to:

- **115 mph (185 km/h)** without windwalls
- **77 mph (123 km/h)** with PVC windwalls

Rain or shine, sand or snow

Stageline mobile stages are built to be operated under the most demanding outdoor conditions.

**The SL260 is engineered and built based on the IBC
(International building code) & NBC (National building code)**

Exceeds AINSI standards

SL260 IN A SNOW STORM AT MONTRÉAL EN LUMIÈRE

Photo: Peter Ryaux-Larsen – Montréal en Lumière

MAXIMUM WEATHER PROTECTION

A STAGE DESIGNED TO MANAGE WINDY CONDITIONS

Sturdy windwalls

- 1 Fire retardant vinyl windwalls with a keeder track system preventing water infiltration to protect gear, talent and crew.

Protection on and off the road with a roof made of fiber glass.

- 2 In closed position, the roof panels of the stage become the side panels of a hardshell trailer. Wrapped around the frame they are structural and weather protective.*

* Blue in picture to highlight keeder track system and Fiber Lock wrap.

WHY THE INDUSTRY PREFERS STAGELINE

Most Widely used

More than 25,000 events per year in over 50 countries - an average of 68 events per day.

Craftsmanship and expertise

Every stage is built in-house and benefits from serious engineering and craftsmanship with experience gathered from decades of use in outdoor events.

Quality control and delivery

Each mobile stage goes through a complete inspection during manufacturing including load tests and complete installation prior to delivery.

Exceptional durability and reliability

Built to last 25 years and more with proper care and maintenance.

Provider of safe staging environments for over 30 years

Highest wind resistance - up to 115 mph (185 km/h) without windwalls and 77 mph (123 km/h) with windwalls. No incident causing an injury due to a breakdown of equipment.

Outstanding value

Low operation and maintenance cost. High resale value even after 10 years.

Certification

Each stage complies with road regulations. Stageline provides complete engineering certification for both structural design and rigging capacity for all countries. Certified documents available for each state and province of the US and Canada.

Environmentally responsible

All products are manufactured in Stageline's state of the art LEED® certified facility integrating the latest environmental technologies.

Award-winning

Our company and products have achieved high acclaim in the industry and have won several engineering and event industry awards.

CUSTOMER SERVICE

Customer Support

We provide a complete 24/7 after sales support.

Parts & Accessories

The best way to ensure that your Stageline mobile stage retains its original condition is to purchase your parts and accessories directly from Stageline.

Inspection & Maintenance

Like any sophisticated piece of equipment, a Stageline mobile stage requires basic maintenance throughout the year. This maintenance must be performed according to specific guidelines.

With this in mind, Stageline's engineers and experienced technicians have developed a unique inspection program. This program will give you a complete analysis of the condition of your equipment including a list of immediate repairs & recommendations.

Training

Driven by the need to ensure technical efficiency, Stageline developed a training and certification program which meets and even exceeds its clients' and users' requirements. Operation of a Stageline mobile stage by qualified personnel is directly linked with the enforceability of the warranty and is required to benefit from the technical support offered on all Stageline products.

With its training program, Stageline helps its users and clients increase profitability on their investment through an efficient utilization of the products.

The main goal is to develop the aptitudes and technical knowledge of the technicians in order to preserve the products' integrity and guarantee durability and maximum safety levels.

UNMATCHED ADDED VALUE

A STAGE THAT PAYS FOR ITSELF FOR GOOD REASONS:

Built to last over 25 years, this stage will help you maximize your benefits for years while endorsing a strong commitment to sustainability.

THIS STAGE COMES WITH THE HIGHEST RESIDUAL VALUE OF ANY MOBILE STAGE

It retains 50-75% of its value after 10 years

OFFERS A STRONG LEVERAGE ON YOUR OTHER SERVICES AND A QUICK RETURN ON INVESTMENT

STAGE CARE WARRANTY (TRANSFERABLE)

We are so confident in our staging technology that we offer the Stage Care Warranty that conveys a lasting assurance equal to none

- Full 1 year parts and labor
- 3 years on the chassis and structure
- 5 years on the fiber glass

MEET THOSE WHO OWN

PRODUCTION AND ENTERTAINMENT

"We love the thought and engineering that went into the SL series. Promoters, stagehands, lighting/sound designers, and everyday people who happen to see us setting up... always comment on how amazing and easy it is. The SL 260 is perfect for outdoor concerts in our rugged climate. When we build a stage, we are prepared to encounter thunderstorms, wind events, snow, as well as extreme heat. Our SL260 handles it all very well."

**C.Yarbrough/
Rocky Mountain Rigging & Staging, AZ**

SAFETY AND VERSATILITY

The SL260 with covered wings is the most versatile stage in our fleet. It adds a level of performance, looks and protection from the elements like no other.

**Cory Cope/
Flyspace Productions, PA**

PRODUCTION AND ENTERTAINMENT

The best way to describe the SL260 is that it is the best designed Stageline product ever built. The design is innovative, simple, easy to use and the fastest to deploy in its class. The SL260 Series mobile stages are built strong, durable and offer great innovative ways for rigging that allows LDs to be creative with their designs due to the trim height and rigging capacity for such a compact stage. The optional covered wing gives the user more space and room for the artists as well as full weather protection
